### **Item I—Analysis for Equipment Acquisitions (FAR Case 2019-001)**

This final rule amends the FAR to implement section 555 of the FAA Reauthorization Act of 2018 (Pub. L. 115-254). Section 555 requires an agency to acquire equipment using the method of acquisition that is most advantageous to the Government based on a case-by-case analysis. The methods of acquisition to be considered include purchase, short-term rental or lease, long-term rental or lease, interagency acquisition, and agency acquisition agreements, if applicable, with a state or local government. The case-by-case analysis is of comparative costs and other factors, to include the factors in FAR section 7.401.

**Item II--Application of Micro-purchase Threshold to Task and Delivery Orders (FAR Case 2020-004)**

This final rule amends the FAR to implement section 826 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020 (Pub. L. 116-92), which increases the threshold for requiring fair opportunity on orders under multiple-award contracts from \$2,500 to the "micro-purchase threshold". The threshold at FAR 16.505 is currently \$3,500, as a result of inflation adjustments in accordance with FAR 1.109. The micro-purchase threshold is currently \$10,000. This change applies the word-based threshold to ensure continued alignment with any future changes to the thresholds. This final rule will not have a significant economic impact on a substantial number of small entities.

**Item III--Technical Amendments**
